

## ADMISSION

A committee composed of faculty members and students admits applicants to the student body. The committee's decision is based upon the previous training of applicants, their ability, and the part they can be expected to play in the community. The College has adopted no fixed regulations concerning the age or academic background of students applying for admission. It prefers to consider each case individually. Applicants' records must indicate that they are ready to do college work. Most applicants are of normal college age and have completed a four year course in an accredited secondary school. Applicants who have not been graduated from secondary schools may be admitted. Although it is understood that education cannot be unduly accelerated, the College believes that those who can proceed rapidly should be given the chance to do so.

To Graduate Students certain departments offer the opportunity of observing their teaching techniques. Participation in the life of the community acquaints one with the background against which these techniques are effectively employed. Interested persons should apply for admission in the regular way and correspond with the department of their special interest.

The College provides the following forms to be filled out by applicants:

1. An application blank to be accompanied by an application fee of \$5.00.
2. A financial agreement for the full fee or an application for reduced fee, signed by the person responsible for the applicant's fees and by the student. (see Fees).
3. A health certificate and an oculist's certificate to be sent directly to the College by the examiners.

The College will write directly to the references given on the application blank for letters of recommendation and for records of previous work.

An example of the applicant's work may be submitted with the application.

A visit to the College or a personal interview with a representative is desirable and may be required. The committee will not decide whether to accept an applicant while he is visiting the College.
